Landings in live weight except scallops measured in meat weight

Groundfish Landings and revenue include estimate of missing dealer

reports; dealer and vessel-reported landings and revenue for other species.

"-" for values greater than zero and less than 0.5; "0" for values equal to zero; "N/A" not meaningful

*Top five other species by revenue landed on all trips:

Scallops, Lobster, Summer Flounder, Loligo Squid, Monkfish

Any value for a non-allocated species may be due to landings of that stock; misreporting of species and/or stock area; and/or estimated landings (in lieu of missing reports) based on vessel histories.

These data are the best available to NOAA's National Marine Fisheries Service (NMFS). Data sources for this report include: (1) Vessels via VMS; (2) Vessels via vessel logbook reports; (3) Dealers via Dealer Electronic reporting. Differences with previous reports are due to corrections made to the database.
